Rehearsal #10

4 of 4

Schedule

Band tested and rehearsed onstage while fight choreography for I, 8; I, 9; and II, 7 happened in the Ring
Blocked II, 9
Rehearsed music

Late

XXX (didn't text SM)

Absent

None

General

1. Band test was a great learning experience today! XXX learned a lot, stage management learned a lot...learning all around.
2. Big thanks to XXX for choreographing some great fights. We'll keep them running at ¼ speed as long as we can.

Direction

1. Come in a little early to work out the hayloft with stage management.

Music

1. Thanks for the band test today!
2. XXX, can you come in a little early tomorrow to go through cues for music with me?

Choreography

1. Sharon would like some assistance in "Those You've Known" (II,9). We can schedule some time for that next Wednesday.

Scenic

1. Music has requested a supply of 1-½" nails for the harmonium. It folds out of the case, and then the weight of the instrument is held up by two nails. I can show you how this works at some point if this isn't very clear. We can probably brainstorm a better solution than two nails as well.
2. Music would like the stairs to the band platform to be moved as upstage as possible.
3. Can the keyboard, amps, and harmonium get covered before any painting happens tomorrow? Thanks.

Properties

1. Can we look into making a switch? We might need something sturdier than a real stick.
2. ADD a newspaper for Herr Stiefel in I, 9.
3. All the letters should be smaller, like a small piece of stationery.
4. Can we get a switchblade comb or something to stand in for the razor? It would be great to have it before designer run.

Costumes

1. The men are very happy with their shoes!

Lighting

1. XXX needs 2 non-dim outlets.

Sound

1. Thanks for coming in for the band test!

Dramaturgy
